

ANNOUNCING TQL T R A X MOBILE APPLICATION

Once downloaded, this is the icon you'll click on to access the NEW app.

TUTORIAL

► FEATURES

► SEARCH

TQL's first-of-its-kind customer mobile load search. This feature allows our customers to search past or present loads by: TQL PO Number, Customer PO Number or Load Date. A detailed description of the load is shown in which you can then either view all check calls and load stops, track load status and view load locations on a map.

► ON THE ROAD

Tapping this button allows our customers to view all current loads in-transit.

► HOW TO VIDEO

Learn how to use TRAX, right from the app.

► CALL BROKER

See your Broker's contact information with the touch of a button.

► SOCIAL MEDIA

Connect with Facebook or view our continually-updated YouTube channel.

► NOTICE

When our customers launch the application a warning notice will appear for a few seconds before the main screen appears. Once a feature is selected, the log-in prompt will display.

► ACCESS

To access the TQL TRAX app go to the Google Play Store or Apple App Store to download. For more information please call 1-877-568-7539 or email marketing@tql.com.

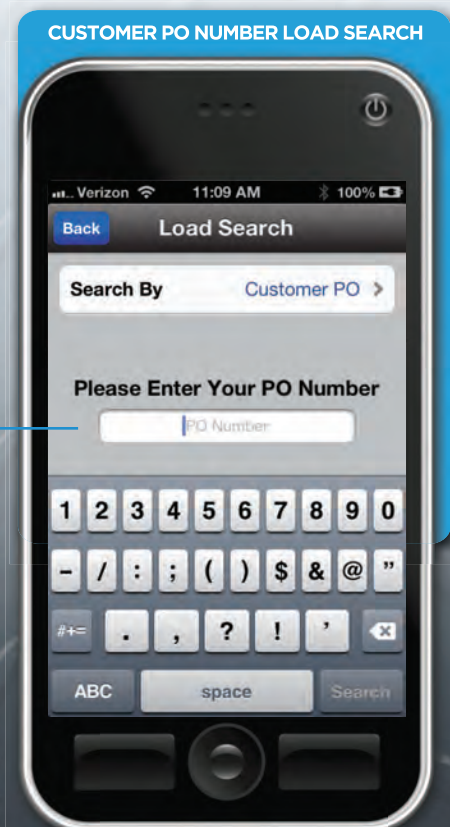

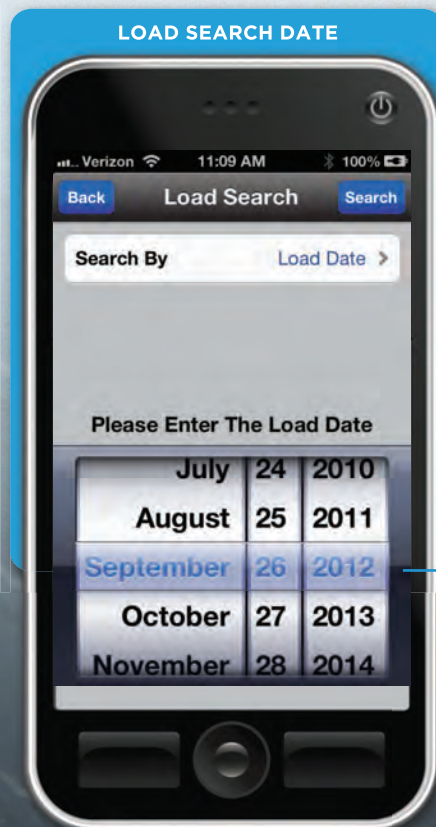

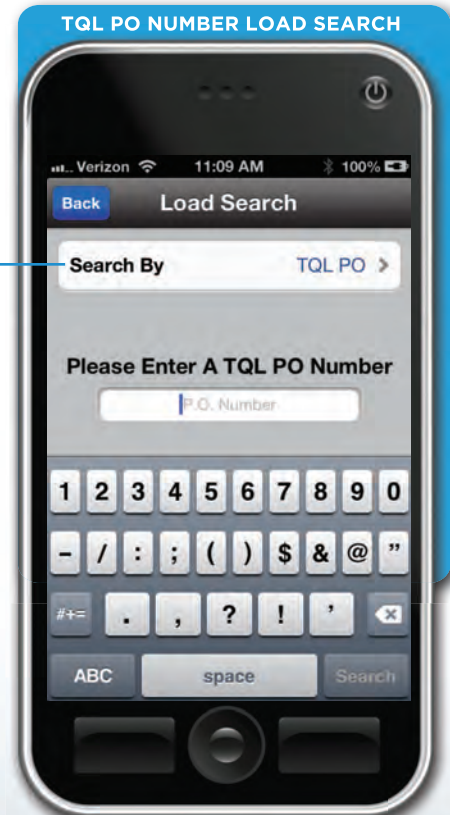

TQL TRAX Mobile App

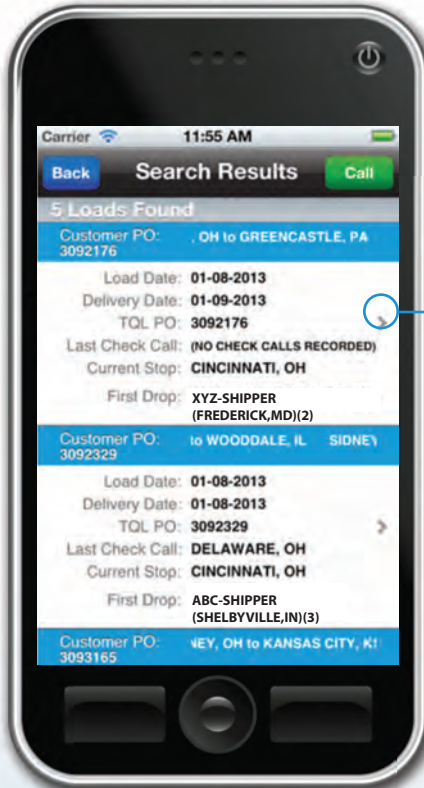

► LOAD SEARCH OPTIONS

You can search loads based on TQL PO#, the Customer PO, or by load date.

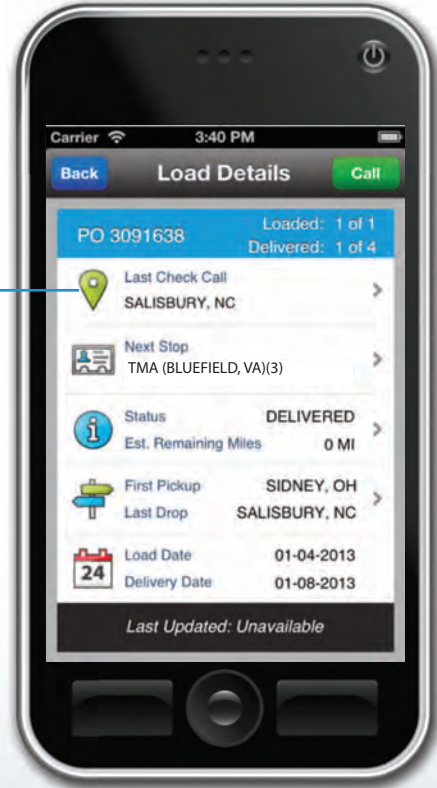

TQL TRAX Mobile App

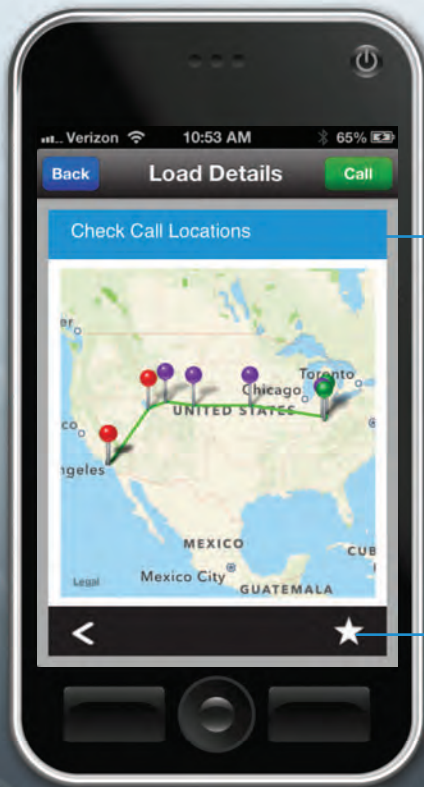

► LOAD SEARCH RESULTS

After making your selection and entering your search criteria you will see a high level overview of your load. The city listed indicates the loads location as of the drivers last check-in. Throughout this app, anything with a horizontal arrow will allow you to view additional information.

► LAST CHECK CALL

Tapping here takes you to the map routing the load.

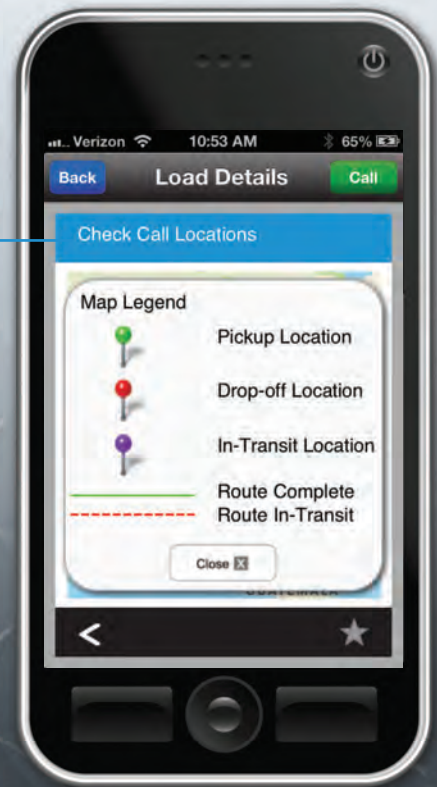

► MAP

Shows the line of sight route – includes pickups, drop-offs and in-transit routes.

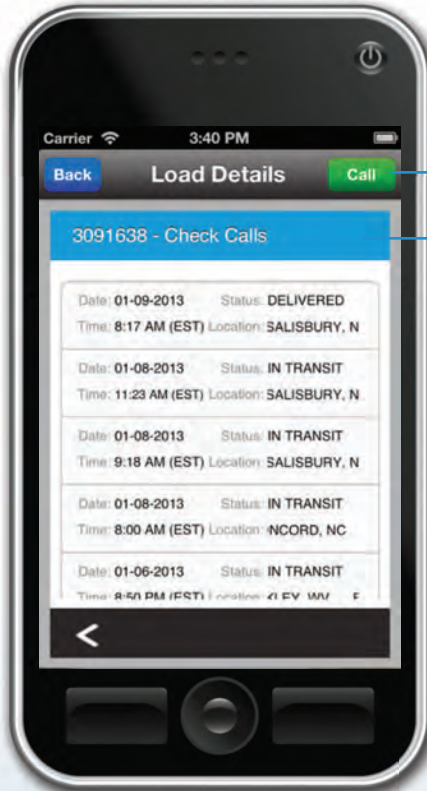

► STAR/MAP LEGEND

Tapping on the star shows you the Map Legend.

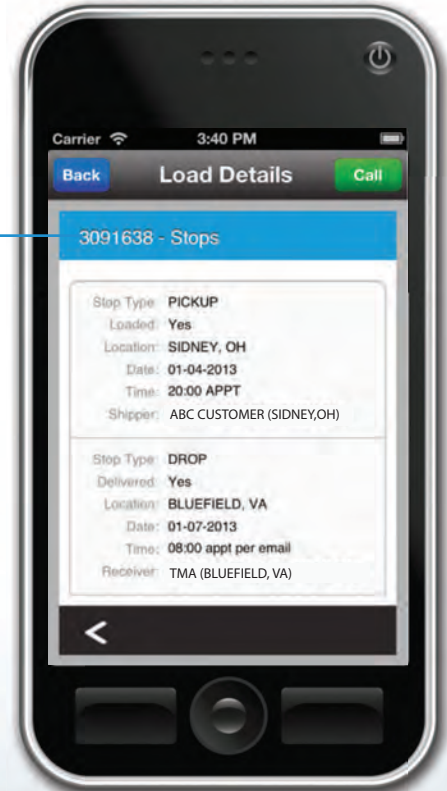

TQL TRAX Mobile App

MORE LOAD SEARCH RESULTS

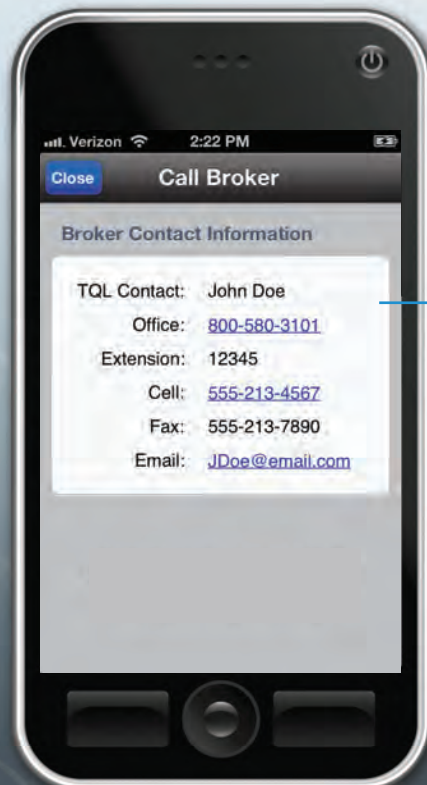

► CHECK CALLS SCREEN

Enables you to view the load's check calls, listing the most recent call first. This displays the same information as the map, but in a list version.

► LOAD STOPS SCREEN

Enables you to view the status of the load and stop type as well as all pick and drop locations including appointment times.

► BROKER CONTACT INFO

If you need to contact your broker for any reason, select the "Call" button, in the upper right corner of the screen to see all their contact information.
